I PUBLIC ECONOMICS AND ECONOMIC EFFICIENCY

1 An Introduction to Public Economics	3
1.1 Public Economics	3
1.2 Methods	3
1.3 Analyzing Policy	5
1.4 Preview	6
1.5 Scope	9
2 Equilibrium and Efficiency	13
2.1 Introduction	13
2.2 Economic Models	13
2.3 Competitive Economies	14
2.4 The Exchange Economy	15
2.5 Production and Exchange	22
2.6 Efficiency of Competition	26
2.6.1 Single Consumer	27
2.6.2 Pareto-Efficiency	31
2.6.3 Efficiency in an Exchange Economy	33
2.6.4 Extension to Production	37
2.7 Lump-Sum Taxation	39
2.8 Discussion of Assumptions	41
2.9 Summary	43
3 Behavioral Economics	51
3.1 Introduction	51
3.2 Behavioral Individuals	53
3.2.1 Simple Example: How Much to Save?	53
3.2.2 Present-Bias	54
3.2.3 The (β, δ) Model of Self-Control	55
3.2.4 Reference-Dependence Bias	57
3.2.5 The Gambler's Fallacy	58

3.2.6	Confirmation Bias	59
3.2.7	Confidence Bias	60
3.2.8	Framing Bias	60
3.2.9	Conformism Bias	62
3.2.10	Identity and Social Norms	63
3.3	Behavioral Markets	64
3.3.1	Money Pump	65
3.3.2	Complementary Mistakes	65
3.3.3	Rationality Tug-of-War	67
3.4	Behavioral Policy	67
3.4.1	Internalities versus Externalities	68
3.4.2	Automatic Enrollment	69
3.4.3	The SMarT Plan	69
3.4.4	Complementarity	70
3.5	Behavioral Welfare	71
3.5.1	New Welfare Criterion	71
3.5.2	Choice-Based Welfare Analysis	72
3.5.3	Refinement and Structural Modeling	73
3.5.4	Application: Global Warming	74
3.6	Other-Regarding Preferences	76
3.6.1	Ultimatum Game	76
3.6.2	Social Preferences	77
3.6.3	Market Impact	78
3.7	Conclusions	80

II GOVERNMENT

4	Public Sector Statistics	89
4.1	Introduction	89
4.2	Historical Development	89
4.3	Composition of Expenditure	94
4.4	Revenue	97
4.5	Government Debt	107
4.6	Measuring the Government	112
4.7	Conclusions	114

5	Theories of the Public Sector	119
5.1	Introduction	119
5.2	Justification for the Public Sector	119
5.2.1	The Minimal State	119
5.2.2	Market versus Government	121
5.2.3	Equity	122
5.2.4	Efficiency and Equity	123
5.3	Public Sector Growth	123
5.3.1	Development Models	123
5.3.2	Wagner's Law	124
5.3.3	Baumol's Law	125
5.3.4	A Political Model	126
5.3.5	Ratchet Effect	128
5.4	Excessive Government	129
5.4.1	Bureaucracy	130
5.4.2	Budget-Setting	132
5.4.3	Monopoly Power	133
5.4.4	Corruption	134
5.4.5	Government Agency	135
5.4.6	Cost Diffusion	137
5.5	Conclusions	138

III DEPARTURES FROM EFFICIENCY

6	Public Goods	147
6.1	Introduction	147
6.2	Definitions	148
6.3	Private Provision	150
6.4	Efficient Provision	154
6.5	Voting	156
6.6	Personalized Prices	159
6.7	Mechanism Design	163
6.7.1	Examples of Preference Revelation	163
6.7.2	Clarke-Groves Mechanism	166
6.7.3	Clarke Tax	168
6.7.4	Further Comments	169

6.8	More on Private Provision	170
6.8.1	Neutrality and Population Size	170
6.8.2	Experimental Evidence	174
6.8.3	Modifications	176
6.9	Fund-Raising Campaigns	178
6.9.1	The Contribution Campaign	179
6.9.2	The Subscription Campaign	181
6.10	Conclusions	182
7	Club Goods and Local Public Goods	191
7.1	Introduction	191
7.2	Definitions	192
7.3	Single-Product Clubs	193
7.3.1	Fixed Utilization	194
7.3.2	Variable Utilization	196
7.3.3	Two-Part Tariff	197
7.4	Clubs and the Economy	199
7.4.1	Small Clubs	200
7.4.2	Large Clubs	200
7.4.3	Conclusion	207
7.5	Local Public Goods	208
7.6	The Tiebout Hypothesis	212
7.7	Empirical Tests	214
7.8	Conclusions	216
8	Externalities	223
8.1	Introduction	223
8.2	Externalities Defined	224
8.3	Market Inefficiency	225
8.4	Externality Examples	228
8.4.1	River Pollution	228
8.4.2	Traffic Jams	229
8.4.3	Pecuniary Externality	230
8.4.4	The Rat Race Problem	232
8.4.5	The Tragedy of the Commons	233
8.4.6	Bandwagon Effect	235
8.5	Pigouvian Taxation	236
8.6	Licenses	239

8.7	Internalization	241
8.8	The Coase Theorem	242
8.9	Nonconvexity	247
8.10	Conclusions	248
9	Imperfect Competition	255
9.1	Introduction	255
9.2	Concepts of Competition	256
9.3	Market Structure	257
9.3.1	Defining the Market	257
9.3.2	Measuring Competition	258
9.4	Welfare	260
9.4.1	Inefficiency	260
9.4.2	Incomplete Information	263
9.4.3	Measures of Welfare Loss	264
9.5	Tax Incidence	268
9.6	Specific and Ad valorem Taxation	274
9.7	Regulation of Monopoly	277
9.8	Regulation of Oligopoly	282
9.8.1	Detecting Collusion	282
9.8.2	Merger Policy	283
9.9	Unions and Taxation	285
9.10	Monopsony	286
9.11	Conclusions	288
10	Asymmetric Information	297
10.1	Introduction	297
10.2	Hidden Knowledge and Hidden Action	300
10.3	Actions or Knowledge?	301
10.4	Market Unraveling	302
10.4.1	Hazard Insurance	302
10.4.2	Government Intervention	305
10.5	Screening	307
10.5.1	Perfect Information Equilibrium	308
10.5.2	Imperfect Information Equilibrium	310
10.5.3	Government Intervention	313
10.6	Signaling	314
10.6.1	Educational Signaling	316
10.6.2	Implications	321

10.7	Moral Hazard (Hidden Action)	323
10.7.1	Moral Hazard in Insurance	323
10.7.2	Effort Observable	325
10.7.3	Effort Unobservable	326
10.7.4	Second-Best Contract	327
10.7.5	Government Intervention	329
10.8	Public Provision of Health Care	330
10.8.1	Efficiency	330
10.8.2	Redistributive Politics	332
10.9	Evidence	334
10.10	Conclusions	336

IV POLITICAL ECONOMY

11	Voting	345
11.1	Introduction	345
11.2	Stability	345
11.3	Impossibility	347
11.4	Majority Rule	350
11.4.1	May's Theorem	350
11.4.2	Condorcet Winner	351
11.4.3	Median Voter Theorems	351
11.4.4	Multidimensional Voting	356
11.4.5	Agenda Manipulation	358
11.5	Alternatives to Majority Rule	361
11.5.1	Borda Voting	361
11.5.2	Plurality Voting	363
11.5.3	Approval Voting	363
11.5.4	Runoff Voting	364
11.6	The Paradox of Voting	365
11.7	The "Alabama" Paradox	371
11.8	Political Competition	372
11.8.1	Downsian Model	372
11.8.2	Policy Divergence	373
11.8.3	Multidimensional Competition	376
11.8.4	"Swing Voter" Politics	377
11.8.5	Citizen-Candidate Model	379
11.9	Conclusions	381

12	Rent-Seeking	387
12.1	Introduction	387
12.2	Definitions	388
12.3	Rent-Seeking Games	390
12.3.1	Deterministic Game	391
12.3.2	Probabilistic Game	394
12.3.3	Free-Entry	396
12.3.4	Risk Aversion	397
12.3.5	Conclusions	398
12.4	Social Cost of Monopoly	398
12.5	Equilibrium Effects	401
12.6	Government Policy	404
12.6.1	Lobbying	404
12.6.2	Rent Creation	406
12.6.3	Conclusions	408
12.7	Informative Lobbying	408
12.8	Controlling Rent-Seeking	413
12.9	Conclusions	414

V EQUITY AND DISTRIBUTION

13	Optimality and Comparability	423
13.1	Introduction	423
13.2	Social Optimality	424
13.3	Lump-Sum Taxes	427
13.4	Impossibility of Lump-Sum Taxes	430
13.5	Redistribution In-Kind	434
13.6	Aspects of Pareto-Efficiency	436
13.7	Social Welfare Functions	440
13.8	Arrow's Theorem	441
13.9	Interpersonal Comparability	443
13.10	Comparability and Social Welfare	446
13.11	Conclusions	450
14	Inequality and Poverty	457
14.1	Introduction	457
14.2	Measuring Income	458
14.3	Equivalence Scales	460

14.4	Inequality Measurement	466
14.4.1	The Setting	467
14.4.2	Statistical Measures	467
14.4.3	Inequality and Welfare	475
14.4.4	An Application	480
14.5	Poverty	481
14.5.1	Poverty and the Poverty Line	482
14.5.2	Poverty Measures	483
14.5.3	Two Applications	488
14.6	Unequal Opportunities	489
14.6.1	Defining Equality of Opportunity	490
14.6.2	Measuring Equality of Opportunity	491
14.6.3	Equal-Opportunity Policy	491
14.7	Intergenerational Inequality	492
14.7.1	Measuring Issues	492
14.7.2	Causal Mechanisms	493
14.8	Conclusions	496

VI TAXATION

15	Commodity Taxation	505
15.1	Introduction	505
15.2	Deadweight Loss	506
15.3	Optimal Taxation	509
15.4	Production Efficiency	513
15.5	Tax Rules	515
15.5.1	Inverse Elasticity Rule	516
15.5.2	Ramsey Rule	517
15.6	Equity Considerations	521
15.7	Applications	523
15.7.1	Reform	524
15.7.2	Optimality	526
15.8	Efficient Taxation	528
15.9	Public Sector Pricing	530
15.10	Conclusions	531
16	Income Taxation	537
16.1	Introduction	537
16.2	Equity and Efficiency	538

16.3	Taxation and Labor Supply	539
16.4	Empirical Evidence	544
16.5	Optimal Income Taxation	547
16.6	Two Specializations	555
16.6.1	Quasi-Linearity	555
16.6.2	Rawlsian Taxation	559
16.7	Numerical Results	561
16.8	Voting over a Flat Tax	563
16.9	Conclusions	565
17	Tax Evasion	573
17.1	Introduction	573
17.2	The Extent of Evasion	574
17.3	The Evasion Decision	576
17.4	Auditing and Punishment	583
17.5	Evidence on Evasion	586
17.6	Effect of Honesty	588
17.7	Tax Compliance Game	590
17.8	Behavioral Models	593
17.9	Compliance and Social Interaction	599
17.10	Conclusions	600
18	Limits to Redistribution	607
18.1	Introduction	607
18.2	Revelation Principle	609
18.3	The Tax Principle	614
18.4	Tax Mix: Separation Principle	620
18.5	Capital Income Tax	624
18.6	Non-Tax Redistribution	626
18.7	Conclusions	628

VII MULTIPLE JURISDICTIONS

19	Fiscal Federalism	635
19.1	Introduction	635
19.2	Arguments for Multi-level Government	636
19.2.1	Costs of Uniformity	637
19.2.2	Tiebout Hypothesis	639
19.2.3	Distributive Arguments	640

19.3	Optimal Structure: Efficiency versus Stability	640
19.4	Accountability	643
19.5	Risk-Sharing	646
19.5.1	Voluntary Risk-Sharing	646
19.5.2	Insurance versus Redistribution	649
19.6	Hard and Soft Budgets	650
19.7	Evidence on Decentralization	653
19.7.1	Decentralization around the World	653
19.7.2	Decentralization by Functions	655
19.7.3	Determinants of Decentralization	656
19.8	Conclusions	657
20	Fiscal Competition	665
20.1	Introduction	665
20.2	Tax Competition	665
20.2.1	Competitive Behavior	666
20.2.2	Strategic Behavior	667
20.2.3	Size Matters	673
20.2.4	Public Input Provision	674
20.2.5	Tax Overlap	676
20.2.6	Tax Exporting	677
20.2.7	Efficient Tax Competition	679
20.3	Income Distribution	681
20.3.1	Perfect Mobility	681
20.3.2	Imperfect Mobility	682
20.3.3	Race to the Bottom	685
20.4	Intergovernmental Transfers	686
20.4.1	Efficiency	686
20.4.2	Redistribution	689
20.4.3	Flypaper Effect	690
20.5	Evidence	691
20.5.1	Race to the Bottom	691
20.5.2	Race to the Top	693
20.5.3	Tax Mimicking	693
20.6	Conclusions	694
21	Issues in International Taxation	703
21.1	Introduction	703

21.2	International Efficiency	704
21.2.1	Efficient Allocations	705
21.2.2	Markets and Efficiency	706
21.2.3	Taxation and Efficiency	708
21.3	Capital and Corporations	709
21.3.1	Capital Taxes	709
21.3.2	Corporate Taxation	711
21.3.3	Formula Apportionment	715
21.3.4	Summary	717
21.4	Transfer Pricing	717
21.5	Location	720
21.5.1	Locational Choice	721
21.5.2	Agglomeration Rents	722
21.5.3	Evidence	723
21.6	Harmonization of Taxes	725
21.7	Tax Principles	729
21.8	Tariff Policy	732
21.8.1	Welfare Cost of Tariffs	733
21.9	Trade Agreements	736
21.10	Conclusions	741

VIII ISSUES OF TIME

22	Intertemporal Efficiency	751
22.1	Introduction	751
22.2	Overlapping Generations	753
22.2.1	Time and Generations	753
22.2.2	Consumers	754
22.2.3	Production	755
22.3	Equilibrium	758
22.3.1	Intertemporal Equilibrium	759
22.3.2	Steady State	759
22.4	Optimality and Efficiency	762
22.4.1	The Golden Rule	762
22.4.2	Pareto-Efficiency	765
22.5	Testing Efficiency	769
22.6	Conclusions	770

23	Social Security	775
23.1	Introduction	775
23.2	Types of System	776
23.3	The Pensions Crisis	778
23.4	The Simplest Program	781
23.5	Social Security and Production	783
23.6	Population Growth	787
23.7	Sustaining a Program	790
23.8	Ricardian Equivalence	794
23.9	Social Security Reform	797
23.10	Conclusions	802
24	Economic Growth	809
24.1	Introduction	809
24.2	Exogenous Growth	810
	24.2.1 Constant Savings Rate	810
	24.2.2 Optimal Taxation	817
24.3	Endogenous Growth	823
	24.3.1 Models of Endogenous Growth	824
	24.3.2 Government Expenditure	826
24.4	Policy Reform	829
24.5	Empirical Evidence	833
24.6	Conclusions	837

IX APPLICATIONS

25	Cost–Benefit Analysis	847
25.1	Introduction	847
25.2	What Is Cost–Benefit Analysis?	848
	25.2.1 Simple Example	849
	25.2.2 Broader Approach	850
25.3	The Process of CBA	851
	25.3.1 Discounting Future Values	853
25.4	Principles of CBA	856
	25.4.1 Common Unit of Measurement	856
	25.4.2 Revealed Preferences	857
	25.4.3 Valuing Market Goods: Marshallian Surplus	858

	25.4.4 Valuing Non-market Goods: Hedonic Prices	859
	25.4.5 Impact Assessment	860
	25.4.6 Decision Criteria	861
	25.4.7 Difficulties for CBA	862
25.5	Valuing Life	865
25.6	Valuing the Future	869
	25.6.1 Intertemporal Arbitrage	870
	25.6.2 The UK <i>Green Book</i>	873
	25.6.3 Adjustment for Risk	875
25.7	Theoretical Foundations of CBA	876
	25.7.1 Social Welfare Evaluation	877
	25.7.2 Distributive Weights	882
	25.7.3 Market Prices and Shadow Prices	883
25.8	Conclusions	889
26	Economics of Climate Policy	895
26.1	Introduction	895
26.2	Special Features	897
26.3	The Science of Global Warming	900
	26.3.1 Greenhouse Gases and Temperatures	900
	26.3.2 Controversies	904
	26.3.3 Predictions	907
26.4	Integrating Economics and Climate	910
	26.4.1 Sources of Damage	911
	26.4.2 Modeling Economic Damage	912
	26.4.3 Effects of Policy	915
26.5	Competing Generations	917
26.6	Ecological Discounting	924
26.7	Climate Policy in Practice	929
	26.7.1 Pricing and Policies	929
	26.7.2 The EU Emissions Trading Scheme	931
	26.7.3 International Agreements	934
	26.7.4 Prices or Quantities	937
	26.7.5 Further Policies	939
26.8	Conclusions	940
	Index	947
